The screenshot displays a Windows 10 desktop environment. A file explorer window is open, showing the 'Desktop' folder. The 'This PC' section on the left sidebar is expanded, showing 'Local Disk (C:)' and 'Local Disk (D:)'. The main pane shows several folders, including 'action', 'Artificial Intelligence', 'Java', 'JSP', 'New folder', 'S & Ska Point', 'Tutorial', and 'Tutorial 2022 4-2'. The 'File name' field contains 'Netflix Executive Overview .png' and the 'Save as type' is set to 'Portable Network Graphics (*.png)'. Below the file explorer, a bar chart is visible, showing the 'Count of movies' for various genres. The chart has a y-axis labeled 'Count of movies' ranging from 0 to 10K and an x-axis with categories: Thriller, Comedy, Action, Drama, PG-13, Horror, Sci-Fi, TV-14, TV-G, MP, G, TV-PG, TV-17, NR, NC-17, Drama, Western, and Other. The 'Thriller' category has the highest count, exceeding 10K. To the right of the bar chart, a dashboard application is partially visible, showing a grid of charts and a sidebar with navigation options like 'Horizontal Container', 'Vertical Container', 'Text', 'Extension', 'Form', 'Image', 'Table', 'Workflow', and 'Work Item'. The dashboard also includes a 'Show dashboard title' checkbox and a 'Data Source' section with a 'Growth by Release Year' chart. The taskbar at the bottom shows the Start button, Search, and several pinned applications including 'Jupyter Notebook' and 'Microsoft Word'. The system tray on the right shows the date and time as '18:42 20-09-2024'.

G: Evaluate and Optimize Sharing Strategies

Step 1: Comparative Evaluation of Local Distribution Strategies

Distribution Method	Output File Format	Recipient Requirements	Interactivity Level	Best Use Case	Key Vulnerability / Tradeoff
Packaged Workbook	.twb x	Tableau Desktop or free Tableau Reader	High (Full crossfiltering , tooltips, parameters)	Sending interactive dashboards to colleagues for standalone exploration	Embeds the entire dataset inside the file; security risk if underlying data is sensitive
Standard Workbook	.twb	Tableau Desktop + Access to original data path	High (Full authoring and filtering)	Developer version control and local script repositories	Contains only XML metadata and visualization code; will show broken links if the CSV moves
Vector Document	.pdf	Any PDF reader (Adobe, Web Browser)	None (Static printout)	Formal board packs, audited regulatory submissions , executive briefings	Cannot drill down or interact; multi-page scaling must be managed manually
High-Res Graphic	.png / .emf	Slide software (PowerPoint , Keynote)	None (Static snapshot)	Slide decks, email summaries , internal wiki articles	Fixed resolution; tooltip details and hidden marks are lost
